# GRIP<sup>SYSTEMS</sup>

STRETCH FILM DISPENSER

## THE ORIGINAL Grip Stretch Film Dispenser

Twist-Lock, Magnetized  
Film Applicator

Unique, lightweight,  
ergonomically designed,  
stretch film dispenser.

**40% SAVINGS**

Eliminate health and safety risks, reduce user  
fatigue, and improve efficiency by up to **40%**  
with the Grip film dispenser.

Designed to minimize any strain on the operator,  
whilst reducing the wrapping time and improving  
wrap quality.

- Maximize user efficiency and safety
- Improve load stability
- Rapid roll-change, twist-lock tension mechanism
- Reach those high corners with minimum effort
- Perfect for securing irregular loads
- Built-in magnets for easy off-floor storage

# STRETCH FILM

# STRETCH FILM

PRE-STRETCHED  
HIGH-YIELD  
LIGHTWEIGHT  
SUSTAINABLE  
SOLUTIONS

**i**  
Grip film comes in  
CAST and BLOWN variants.

Grip Film is pre-stretched  
for increased strength  
and retention properties.

**BLOWN FILM**  
offers greater puncture  
resistance and is perfect  
for irregular loads

**CAST FILM**  
has a very high transparency  
and a silent unwind

## Grip StretchFilm

EASIER, STRONGER, LIGHTER  
AND FASTER TO APPLY

**>40% REDUCTION IN TIME, WASTE + COST**

Grip Film is used globally to reduce clients' carbon footprints, with the possibility to reduce the material per pallet by **50%**.

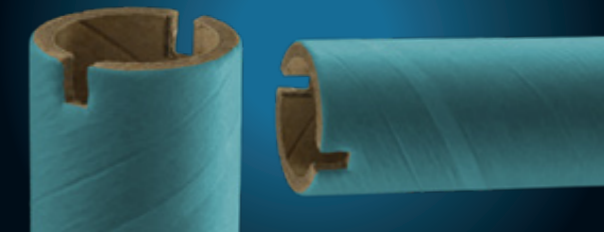

The reduced thickness but increased strength of pre-stretched film equates to much less plastic needed per wrap, resulting in cost savings and less waste.

The film memory creates higher holding force ensuring load stability and increased protection in transit.

The oscillated edges of the film increase the strength of the wrap and prevent damage to the rolls.

### GRIP FILM IS USABLE RIGHT TO THE CORE

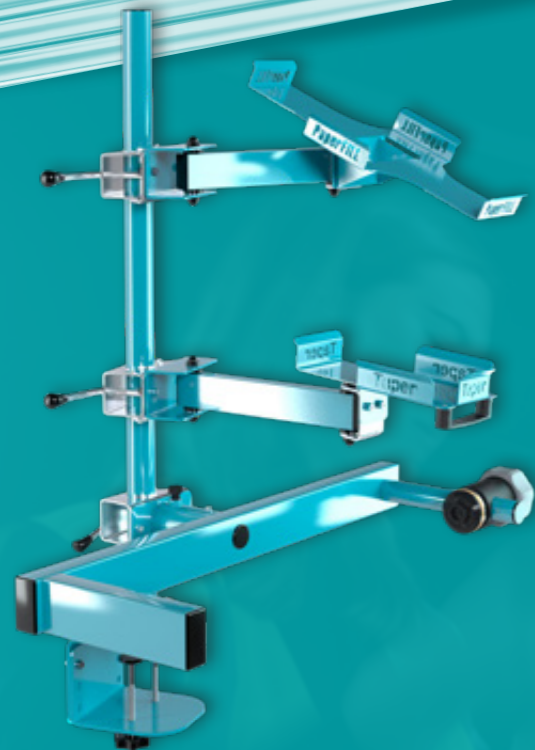

The Grip Film robust core is designed to interface seamlessly with the Grip Film dispenser.

### UNIQUE SELF-GRIPPING STRETCH FILM

- Grip Film automatically contracts when applied providing increased load stability
- Less manual effort required resulting in less operator fatigue and fewer accidents
- High puncture resistance offers extra support for irregular loads
- Reinforced edging and the oscillated winding process protects the rolls from damage

Grip PaperFill

Grip Taper

Grip PaperFlex

## ECO-FRIENDLY PACKING STATION SOLUTION

Designed with the operator in mind, the robust design easily fits to any work bench, allowing for maximum efficiency in fast paced operations.

The flexible dispenser arms enable versatile working for any operator, reducing unnecessary cluttered work areas and extra stress on the user.

# STACK

ORGANISATION SOLUTION

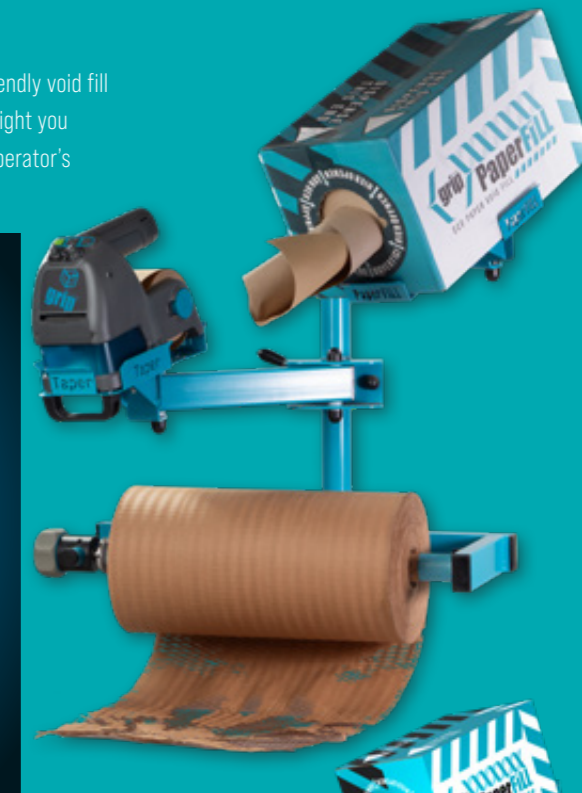

## Grip Stack

Designed to be hassle-free and customizable, the Grip Stack is your one-stop solution when fitting out a packing area or looking for a safe and tidy solution to organize your packing operation.

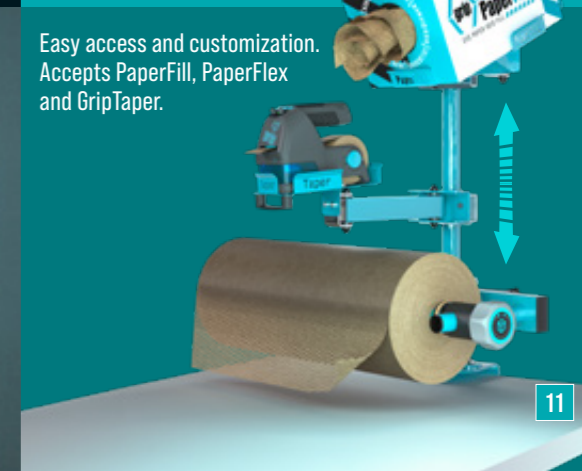

From the water-activated tape dispenser to the eco-friendly void fill and protective wrap solutions, choose the order and height you use them. Position the stack wherever best suits the operator's need, suiting the flow of the operation.

Attaches easily to any workstation.

Easy access and customization. Accepts PaperFill, PaperFlex and GripTaper.

# TAPER

WATER-ACTIVATED  
TAPE DISPENSER

## Grip Taper

The world's most versatile water-activated tape dispenser

- **Multiple tape length and speed settings**, enabling the user to adjust as required
- **Compact and mobile** - but is designed to work just as effectively as desktop machines, only taking up half the space of traditional machines
- Used in conjunction with the Grip Stack system, the elevated, flexible position of Grip Taper means you can **say goodbye to disorganized packing benches**, increasing efficiency

### MULTIPLE TAPE LENGTHS AND SPEEDS

Optimize packing efficiency with multiple different pre-set tape lengths and ejection speeds.

### RAPID REFILLS AND ROLL CHANGES

Quickly and easily refill the water tank and insert a new roll onto the spindle once finished.

### COMPACT, VERSATILE, MULTIFUNCTIONAL

Lightweight, portable and battery powered, use your Taper as a desktop machine, or use it as a hand-held device anywhere you need.

### TOTAL CONTROL + SEAMLESS INTEGRATION

Reinforced paper tape provides high security and protection to your parcels while staying aligned with your environmental efforts.

### EXTENDED TAPER ARM

An adaptor to enable the use of longer tape rolls.

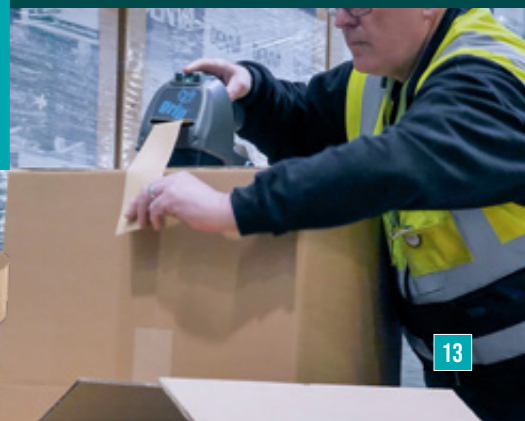

**2600ft** OF WATER ACTIVATED TAPE APPLICATION PER BATTERY

Roll Change **10 secs**

### COMPATIBLE WITH STANDARD 2.36" GUMMED TAPE

Also available in reinforced, white and custom printed options.

grip<sup>SYSTEMS</sup>

**RAPID ROLL CHANGE SYSTEM AND TENSIONING**

The robust core holder allows you to easily drop the new roll into place and reset the perfect tension.

# PAPERFLEX

**Grip PaperFlex**  
ECO FRIENDLY PROTECTIVE WRAP

Your alternative to plastic bubble wrap, without any compromise on quality.

PAPERFLEX  
DESK MOUNTED

PAPERFLEX  
STACK MOUNTED

**PROTECTIVE  
DIAMOND  
ECO WRAP**

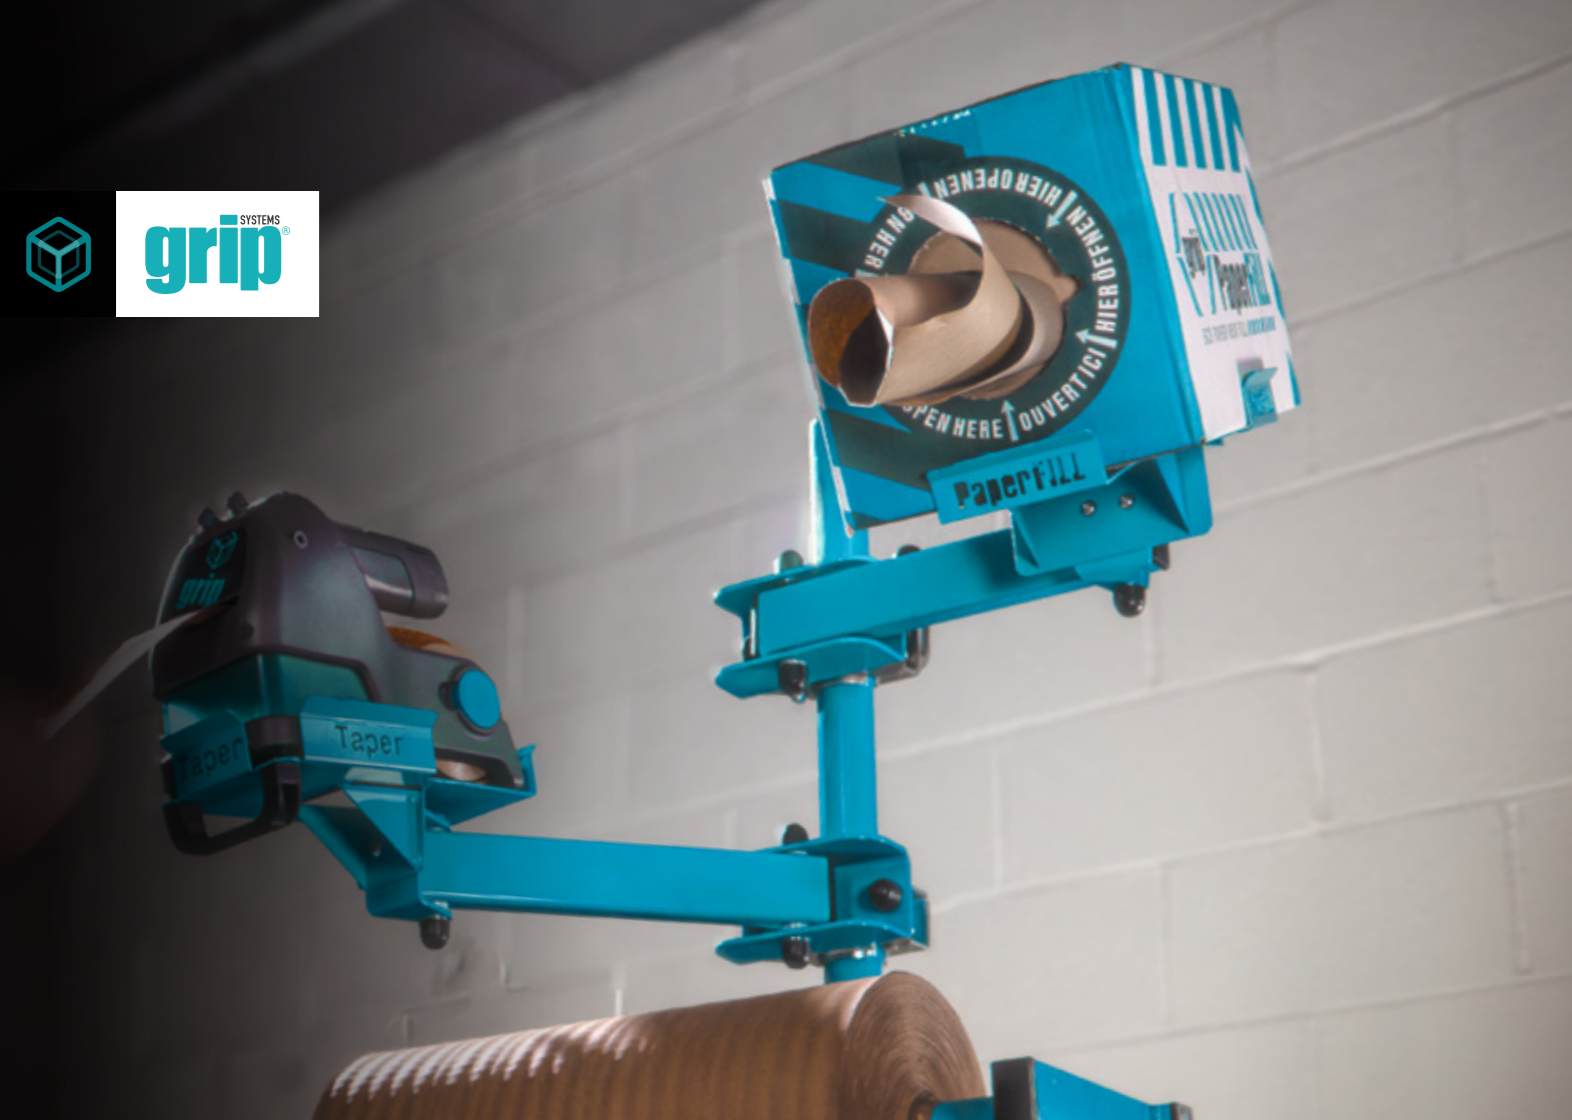

The honeycomb cells lock together to create a thick cushioning effect around the products.

**FULLY COMPOSTABLE  
AND ECO-FRIENDLY,**

In addition to protecting your goods, PaperFlex delivers a wow factor, complimenting your wrapped item.

# PAPERFILL

## Grip PaperFill

ECO FRIENDLY VOID FILL SOLUTIONS

FLEXIBLE | FAST | ECO

- Your eco-friendly, full recyclable, portable void fill system
- Reduce waste and fill costs by only using exactly what you need, with no pre-cut lengths
- No time-consuming refills or reloading
- Compatible with the Grip Stack system

PaperFill is an environmentally friendly, void fill alternative meaning you can eliminate single-use plastic fillers.

**360° adjustability when used with Grip Stack System**  
 Strong and easy to operate, 360° vertical and horizontal adjustments allows the operator to fully customize the working environment or speed and efficiency.

- Simple and fast to use, simply pull the consumable, rip and fill your box.
- No manual scrunching required.
- Easily lock your items in place without any compromise on protection or sustainability.

# TURBOTAPER

GUMMED TAPE DELIVERY

## Grip TurboTaper

A GAME CHANGER FOR GUMMED TAPE DELIVERY

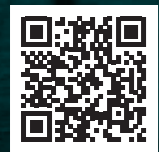

FAST | FLEXIBLE | ECO

- TurboTaper accelerates packing whilst delivering a robust, cost-effective and tamper-evident box seal
- TurboTaper handles tape moistening, cutting and dispensing with ease, boasting a large tape capacity that reduces the need for frequent roll changes
- Whether you opt for our standard water-activated tape or prefer the added security of reinforced gummed paper tape, TurboTaper has you covered

**TOTALLY CUSTOMIZABLE**  
Multiple tape length and speed settings, enabling totally customizable gummed tape delivery.

**SWIFT + SECURE SOLUTION**  
TurboTaper ensures you can achieve a fast, strong and tamper evident box seals.

Every PremierPad machine comes complete with 1 year guarantee and service and maintenance support.

Easily navigate the intuitive interface to control the length and quantity of delivery.

# PREMIER PAD

PADDED PAPER CUSHIONING

**Grip PremierPad**  
A CUTTING-EDGE SOLUTION DESIGNED TO REVOLUTIONIZE YOUR PACKAGING PROCESS

Crafted with precision and innovation, this compact machine offers a customizable experience in producing robust padded paper cushioning for maximum protection and shock absorbency.

Built to last, the PremierPad Machine features a solid metal framework that ensures durability and stability even under demanding production environments.

**EQUIPPED WITH A USER-FRIENDLY CLEAR-TOUCH SCREEN CONTROL PANEL**  
With its multifunction modes, operators have the freedom to choose between manual control or automatic settings, adapting to the specific requirements of each packaging assignment.

# SUPERFLOW

AUTO + MANUAL  
VOID FILL MACHINES

## Grip SuperFlow *AUTO* MAXIMIZE SPACE AND SWIFTLY CREATE PAPER VOID FILL

- Effortlessly produces paper cushioning to protect your goods, minimizing movement in transit, ensuring items arrive in perfect condition
- Featuring automatic cutting functions, SuperFlow Auto allows you to instantly fill boxes with exact amount of paper required
- Grip biodegradable void fill is the recycled, eco-conscious choice for your packaging operations

## Grip SuperFlow *MANUAL* MANUALLY OPERATED

Unparalleled efficiency and sustainability - engineered to provide flawless cushioning for your products during shipping, SuperFlow Manual stands for adaptability and ease of use.

- Adjustable height and effortless installation
- Seamlessly integrates into any workspace
- Ideal solution for packing stations with limited access to electricity.
- Built to last from steel - guarantees durability
- Refilling is a breeze, taking only seconds

**FOOT PEDAL CONTROL**  
SuperFlow Auto allows the operator to adjust and customize the paper length according to requirements.

Every SuperFlow Auto machine comes complete with 1 year guarantee and service and maintenance support.

# MAILER

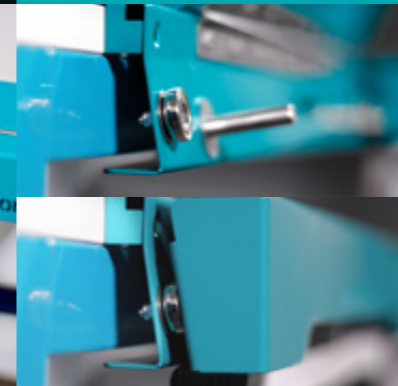

MAIL FULFILMENT SYSTEM

## Grip Mailer

### RAPID MAIL FULFILMENT SYSTEM

LOW-COST PACKAGING SOLUTION,  
BUILT TO QUICKLY, SIMPLY AND SAFELY  
EXPEDITE YOUR MAIL FULFILMENT OPERATIONS

- Eliminate disorganized work benches and improve packing efficiency and speed
- Quick to install and ready to use immediately.
- Super tough 0.08" powder coated steel construction can take-on any packing environment
- Mailer bags are made from at least 30% recycled material and can be custom printed with your design

### FILL, TEAR, SEAL...SO SIMPLE

The ergonomic design allows you to fill Grip Mailer bags with ease. No more uncontrollable bags sliding from your packing bench.

### EASY

Two mega-strong magnets secure the front flap and bags.

### FLEXIBLE

Switch bag sizes quickly and easily. Simply flip the front cover and adjust the locator pin to the desired location.

- Available in four sizes
- Self-seal closure system
- Strong and puncture resistant

12.6" x 17.9"

14.2" x 21.8"

18.3" x 25.8"

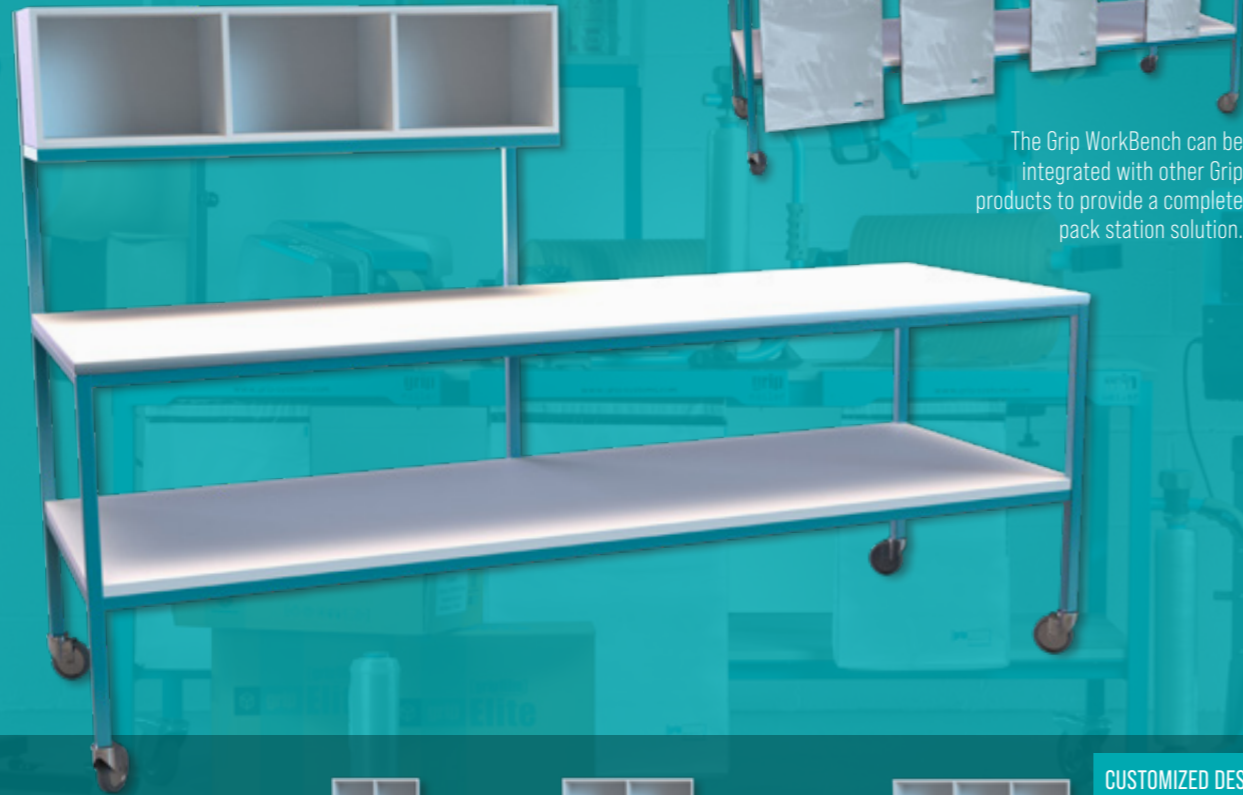

21.6" x 28.3"

# WORKBENCH

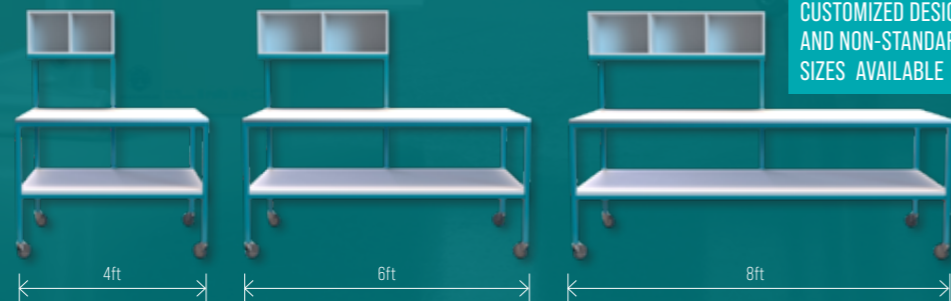

## Grip WorkBench

YOUR ULTIMATE PACKING STATION  
DESIGNED FOR EFFICIENCY, DURABILITY  
AND FLEXIBILITY IN PACKING.

The Grip WorkBench can be integrated with other Grip products to provide a complete pack station solution.

Grip offers three standard sizes but customized and non standard sizes and designs can be manufactured to meet customer specific needs

CUSTOMIZED DESIGNS  
AND NON-STANDARD  
SIZES AVAILABLE

## Grip Global

TAKING EFFICIENCY,  
SPEED & SUSTAINABILITY  
TO THE NEXT LEVEL -  
WORLDWIDE.
